SALE NUMBER 56
CLOSING DATE
March 14 - 15, 1984

TERMS OF SALE
(Please Read Carefully)

1. BIDS BY MAIL, PHONE OR TELEX will be accepted until the closing date. All phone bids must be confirmed in writing on a bid sheet. Bids are treated as LIMITS. Bids are reduced where competition permits to within 5% of the second highest bid. In the case of tie bids, the first received is normally given preference. No "buy" or unlimited bids are accepted. Bids are accepted by lot number only. No lots are broken up. Bids are only executed in even dollar amounts.

2. This sale is NOT an approval sale. All material offered is guaranteed genuine and as described. Careful examination has been made of every lot by experts. Cataloging errors will be cheerfully and promptly corrected. FLOOR BIDDERS MAY NOT RETURN ANY LOTS including those purchased while acting as agents. All claims for adjustment by other bidders must be made within five days of receipt but in no case more than 45 days after a sale. After that time, we will have made settlement with our consignors. As the auction house acts as an agent for various consignors, NO CLAIMS OF ANY KIND can be considered after settlements have been made. If a claim is not made within this 45 day period, no lots are returnable for any reason at any time. If we are notified prior to our settlement date that an opinion of condition, alteration or authenticity is being sought, the matter will remain open until such opinion is rendered. Lots are not shipped until paid for. Therefore, late payment will negate a return privilege. Any returned lot must be in its original holder with seal intact.

3. Successful bidders are required to pay the full invoice amount before lots are delivered. Previously established lines of credit, at the sole option of the auctioneer, may not be honored unless arrangements for this sale have been specifically agreed to in writing by the auctioneer. Please contact us in advance if you have any questions regarding your purchasing plans. First rate credit references or a 25% deposit are necessary to insure entry of your bids. Any portion of such a deposit not used will be promptly refunded after the sale.

4. **All auction lots will have a buyer's fee of 10% which is waived on invoices paid in full within 30 days of the sale closing date.** Floor bidder accounts must be settled on the day of the sale to obtain the waiver of the buyer's fee and delivery of lots unless specifically waived in writing by the auctioneer prior to the sale. Additionally, 1½% monthly interest is charged on all accounts 30 days past due calculated from the sale date. If any awarded lots are still on hand without a deposit 30 days after a sale, they will automatically be offered to the underbidders or relisted in the next available sale. The difference in price will be billed to the former top bidder. Late payers should not expect to receive future catalogs.

5. TERMS OF THIS SALE ARE STRICTLY CASH AND MUST BE PAID PROMPTLY IN U.S. FUNDS. Payment should be made immediately upon receipt of the invoice. Payments from foreign accounts must be made in **U.S. Dollars by International Check drawn on a U.S. bank** or by wire transfer to the account of Joseph L. Lepczyk, c/o East Lansing State Bank. As a convenience and for immediate shipment, invoices may be charged to VISA or MasterCard accounts provided the purchaser agrees to pay an additional 2½% handling charge. Please supply account number, signature and expiration date at the bottom of your Bid Sheet.

6. POSTAGE, INSURANCE and HANDLING FEES are added to ALL SHIPMENTS. A handling fee of $1 per lot or $3 per bulk lot is added to all postal shipments. All lots to be mailed to addresses not in the United States of America or its Territories, are charged an additional 1% insurance fee unless insurance is provided by the bidder. Overseas bidders must supply full detailed shipping instructions and agree to all terms as listed herein before shipment is made. We normally use registered air mail with return receipts and green custom tags on overseas shipments.

7. SALES TAX will be collected under the laws of the state in which the sale is conducted unless a valid resale number is presented.

8. TITLE TO ALL LOTS REMAINS WITH THE AUCTION HOUSE until payment in full is received. The auction house reserves the right to accept or reject any or all bids at its discretion. Generally, bids below 50% of estimate will not be accepted. By placing a bid in this sale, you agree that this agreement is made in Michigan by the auction house's entry of your bid, and that disputes concerning the agreement shall be decided by the application of Michigan law. In the event of a dispute or nonpayment, the auction house may elect to proceed judicially, in which case the bidder consents to jurisdiction and venue in the courts of Ingham County, Michigan. If an account is referred to an attorney for collection, the buyer agrees to hold the auction house harmless and to indemnify it for all costs of collection, including actual, reasonable attorney's fees, with interest as provided in Paragraph 4 accruing on the entire amount until paid.

9. BIDDING IN THIS AUCTION SALE CONSTITUTES ACCEPTANCE BY THE BIDDER OF ALL THE FOREGOING TERMS OF SALE.

The George Sobin Napoleonic Collection
Part II

Part II of this collection presents the silver issues of Napoleon I plus the few billon and bronze emissions that complete the series. One glaring contrast between the gold coinage of Napoleon and the silver, is the dramatic difference in the survival of the one versus the other. Probably every variety of gold issues originally struck are represented by surviving specimens; but a great many of the silver issues are unknown today, and many others are represented by only one or two recorded survivors. The reasons for this sharp contrast are well understood but a brief review may be of interest.

In Nineteenth Century France, gold coins were not a true circulating medium. Gold being too high in value for use in the everyday transactions of ordinary citizens, did not pass from hand to hand in petty commerce where it would quickly wear out. Rather, gold represented a store of capital. It was hoarded or passed in bulk quantities to finance major transactions. In either case, the coins were spared the wear and tear of circulation. Additionally, gold was never subject to demonetization of any sort. Long after the franc collapsed in value, gold coins were valued at their bullion content and continued as a favored form of savings and inflation hedge. When modern collectors began to take a systematic interest in the various decimal series, nearly the whole range of the Napoleonic gold series could be retrieved from the hoards that to some extent still exist.

Silver coins, on the other hand, particularly the ½, 1 and 2 Franc denominations, were indispensable to ordinary commerce. They quickly wore out passing back and forth in retail trade. The price of silver rose following the great gold discoveries of the early 1850's, resulting in the exporting and melting down of vast quantities of French silver to profit from the rise in value above face. The combination of these two forces produced the virtual extinction of the Napoleonic silver series. It is estimated that roughly only about one in a thousand of the original ½, 1 and 2 Franc mintages survives, mostly in sadly worn condition. A popular tendency to hoard 5 Franc pieces, like gold, protected the large coins to some extent from circulation and the melting pot. It is thought that perhaps as many as one in two hundred of the Napoleonic 5 Franc coins survives today. The ¼ Franc, a special case owing to its tiny size, was an extremely unpopular coin and people simply refused to use it. After some years of half-hearted production, the coin was discontinued, its place taken by the larger and more convenient billon 10 Centime piece. The little ¼ Franc languished undisturbed in drawers and cupboards until recent times, finally to be retrieved by collectors. As a result, even though many issues were minuscule, all varieties of the ¼ Franc are believed to survive and their average condition is surprisingly high.

These low survival estimates are substantiated by the results achieved by collectors of the series. The introduction to Part I of this collection in our sale of November 25, 1983, summarized the scope of the most important Napoleonic collection of the past century. This collection formed before World War II by the Belgian collector M. Thys was, by far, the most complete, and represented a determined effort. Yet of the 680 silver varieties supposedly struck for Napoleon, Thys failed to locate at least 175 varieties. Intensive search by collectors over the past 50 years has reduced the "missing" list by another 100 or so varieties. Nevertheless at least 50 or 60 major varieties still remain unknown. While some of these will undoubtedly turn up, it seems certain that many issues have vanished entirely.

There are some 60 specimens in the Sobin Collection that were either missing in the Thys Collection or were unknown to him. These pieces are no more common now than they were in Thys' day. Many of them represent the only specimen yet known. Conversely, it is significant that upwards of 50 varieties in the Thys Collection are lacking in the Sobin Collection being sold now despite 35 years of persistent search.

Certain features of the Napoleonic series deserve wider recognition than they have received in the standard references. There is, for example, the problem posed by various issues dated AN 14 and corresponding issues of 1806. In the case of the Turin mint, the mint report for 1806 lists the issue of ½, 1, 2 and 5 Franc pieces. Not one of the current standard reference works questions these records, and all of them list each variety dated 1806 together with "valuations" proportional to the supposed mintage. Yet despite this documention, NOT A SINGLE SPECIMEN OF ANY OF THESE VARIETIES HAS EVER APPEARED ON THE NUMISMATIC SCENE. No published collection has included an example, no museum owns one, and no dealer has ever offered one for sale. What happened to the 66,000 pieces reportedly struck? The answer is clear - these coins were not struck with dies dated 1806. They were struck with dies dated AN 14. This at once explains the absence of 1806 varieties and the existence of AN 14, ½, 1, 2 and 5 Francs from Turin (these are included in the collection below) even though the latter are not mentioned in the mint reports. The Republican calendar was abolished as of January 1, 1806. Evidently some mints continued to use some dies of AN 14 beyond the cut-off date without adjusting their records. Turin is the most obvious example, but there are others: the La Rochette 5 Franc issue of AN 14 occurs much more frequently than its tiny mintage of 3780 would lead us to expect. The corresponding 1806-H 5 Franc is far rarer than its mintage (27,827) suggests (indeed, the very existence of this variety is still doubtful).

In the matter of overdates, the standard literature is also rather barren with no more than three or four being mentioned. Actually, at least 14 overdates currently are known for the series of which 11 are represented in the Sobin Collection. With one exception, the overdate varieties are quite rare.

List of Overdates

The Sobin Napoleonic Collection represents an intense numismatic collecting effort spanning four decades. Many of the coins, even in low grade, may represent the only opportunity collectors will have to obtain a specimen for their collection. George Sobin not only did a great deal of upgrading this collection but also constantly sought to increase its scope. We hope you do not overlook this opportunity. The estimates are conservative, which will be recognized by advanced specialists. It is possible that some of these lots may sell in excess of three times their estimate. Collectors having specimens of Napoleonic coins not represented in this collection or in substantially higher grade than offered here are encouraged to contact us to place them privately or up for auction when available for sale.

HOT AIR PAGE

The Chicago International Coin Fair (C.I.C.F.) is scheduled for March 16th through 18th. We will be conducting an independent auction at The Hotel Continental during the two days prior to this major convention. This hotel is located just three blocks from the convention site. We have obtained a special room rate at The Hotel Continental during this period and through the weekend at $50 (plus 10.1% tax) per night for single or double occupancy. To take advantage of this rate, you must make your reservation with Terry Hoffman only at (312) 944-4100, ext. 4519 no later than March 1st. Just tell her that you will be attending the Lepczyk Coin Auction. Security is available Thursday at the C.I.C.F. Convention for dealers arriving early. We will also make arrangements for security on Wednesday and Thursday for our bidders who give us advance notice.

Our current sale offers a wide range of diverse material. Many of the U.S. lots are from an old collection and will be accompanied with their original acquisition tags dating back to 1910 from such notables as Chapman, Elder and Guttag. The collection had been in storage since 1948. It was put away in pristine condition but the circumstances of its storage lead to surface oxidation of varying degrees. The coins are still very collectible but few remain "wonder coins", as they would have been if stored more carefully. Many of these pieces had to be cleaned which is mentioned in the lot descriptions. Unfortunately, uncured flips or moist basements are not the only type of problems encountered in long term storage of coins. For example, solvents used to clean the outside of bank boxes accumulate in the seams around a door. If this solvent is not wiped off each time you pull your box out it will adhere to the bottom of the drawer when you remove it. The solvent can vaporize in the sealed compartment and produce a severe oxidation problem on your valuable coins. One solution is to store your coins in a dirty vault! Of the many coins I have handled, I have found that the most effective storage method to retain pristine condition is to store coins in cellophane envelopes or sulphur free, hard white tissue which are then placed inside 2 x 2 envelopes.

Several other major collections are represented in our March sale including George Sobin's French Napoleonic Collection. Two pages of comments on the French Napoleonic series of coins are included in the sale catalog which makes an excellent research article in itself.

In the near future, we will start a separate series of auctions which will be by Mail Bid only. The first will be available shortly and feature numismatic literature. These catalogs will be self-covered, newsprint mailers sent bulk rate. We intend to offer bulk lots, less expensive, and commercial material. Our commission on many items which are very popular with mail bidders is simply too small to justify inclusion in the relatively costly format of our regular catalogs. Rather than price many of our faithful bidders out of the market, we have decided on this change. This new series will have few, if any, illustrations.

The Terms of Sale have been tightened for this sale. The margin of profit after expenses is usually quite modest in the auction business. The upper profit limit is well defined. The increased formality in the Terms of Sale is due to a few successful bidders with lines of credit who turned into bad accounts. We take our responsibilities to our consignors seriously and can not play Russian Roulette as to which bidder is going to go bad each sale or over-extend themselves.

We will start typesetting our May 4th catalog March 1st. In part, this sale will include a nice collection of siege coins, Transylvanian medals and a museum collection including early multiple talers from Germany and Austria. We will continue to emphasize more U.S. and spectacular coins in our regular sales. For the most part, we will not be listing lots worth less than $100 each in our regular sales. Select lots from our May sale will be on display during our Chicago auction.
